**Re: *Petitions of Qwest Corporation for Forbearance Pursuant to 47 U.S.C. § 160(c) in the Denver, Minneapolis-St. Paul, Phoenix, and Seattle Metropolitan Statistical Areas, WC Docket 07-97***

Dear Ms. Dortch:

The undersigned parties hereby submit in the above-captioned proceeding the attached spreadsheet of commercial building supply and demand data for the Denver, Minneapolis-St. Paul, Phoenix, and Seattle Metropolitan Statistical Areas ("MSAs"). The data was gathered by GeoResults and includes by wire center in each MSA: total number of commercial buildings; the total number of commercial buildings served by facilities-based Competitive Local Exchange Carriers ("CLECs"); the total demand by DS0; the total demand by DS0 that could be addressed by facilities-based CLECs. The spreadsheet also includes two market share calculations derived from the data: a competitive "commercial building" market share for facilities-based CLECs; and, the addressable customer capacity (or demand) share of facilities-based CLECs. The data collectively show that in each of the geographic markets for which Qwest seeks forbearance relief (1) all facilities-based CLECs in combination connect with their own facilities to a miniscule number of the commercial buildings and (2) all facilities-based CLECs in combination serve with their own facilities a very small portion of the total addressable demand.

Please do not hesitate to contact me at (202)342-8539 if you have any questions about this submission.

Respectfully submitted,
